

#1 AUTOMOTIVE POWERHOUSE

NXP leads the world in secure connected solutions for automotive applications, but leadership is much more than selling. It's securing a safer future by constantly pursuing the ultimate self-driving vehicle. Our solutions sense, think, and connect lightning-fast without sacrificing end-to-end security.

We need people with an innovative spirit to keep developing the forefront of autonomous technology. To apply for a graduate position or summer placement with a market-leading company in the electronics industry, go to www.nxp.com/careers.
